

Update Username and Password for Player Account

The player account username and password may adjusted from within the player account. The custom created password will not be visible (encrypted) to your club or state association.

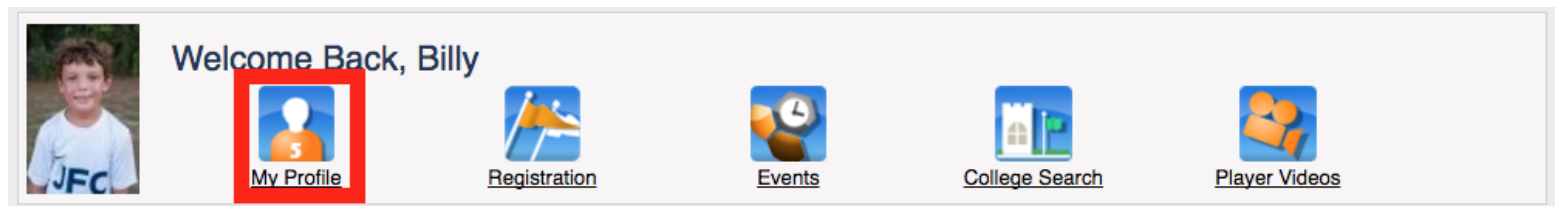

Step 1:

Log into your player account or access player account through Family account.

See "How do I log into my child's account", if you need assistance with logging into the player account.

Step 2:

Click on the "My Profile" tab.

Step 3:

On the left hand side click on the "Username and Password" tab.
